JUNIOR SOFTWARE DEVELOPER | JASCRPT - REACT - NODE.JS

Junior Software Developer with a Software Development Diploma and hands-on experience building JavaScript /React applications, REST API based systems, and mobile applications. Portfolio projects demonstrate CRUD workflows, reusable components, responsive UI, state management, algorithms, and production deployment.

Experienced with Agile project, communicating with stakeholder and analytical problem-solving.

TECHNICAL SKILLS

Language : JavaScript, TypeScript, HTML, CSS, Java, Kotlin, C#

Front-end : React, Vite, React Native, Responsive Web Design

Back-end & Data : Node.js, Express.js, REST APIs, SQL, MySQL, Firebase, Supabase

Tools & Practices : Git, GitHub, Figma, AWS, CRUD, Agile, SDLC, UML, Debugging

PROJECTS

Shoes Market Website

<https://github.com/JuneYunDev/ShoesMarket>

React | JavaScript | CRUD

- Built a full-stack e-commerce application using React, REST APIs, and Supabase, supporting product browsing, authentication, cart, checkout, and administrative workflows.
- Implemented CRUD operations and REST API integration for product and customer data, including authentication and role-based admin functionality.
- Designed responsive customer and admin experiences and implemented CRUD application workflows.

Sorting Algorithm Visualizer

<https://github.com/JuneYunDev/SortingAlgorithmVisualizer>

React | JavaScript | Algorithm

- Visualized Bubble, Selection, Insertion, Merge, Quick and Heap Sort through step-by-step animation events.
- Implemented array-size configuration, algorithm selection, play/speed controls.
- Implemented sorting operations as reusable animation events for comparisons, swaps, array updates, and algorithm state transitions.
- Applied data structures and algorithms concepts through React state-driven visualization.

Developer Portfolio Website

<https://github.com/JuneYunDev/JunePortfolioWebsite> | <https://juneyun.tech>

React | JavaScript | React Router

- Created a VS Code inspired portfolio presenting projects, technical skills, experience, education, and application design work.
- Deployed the production application to a custom domain with HTTPS and integrated GitHub repositories, live demos, and external project resources.

EXPERIENCE

Data Analyst | TELUS Digital

Sep 2024 - Jun 2025

- Analyzed and evaluated data against project guidelines while maintaining accuracy, consistency, and productivity in a production environment.
- Applied structured problem solving to ambiguous cases and adapted to changing project requirements.

Android Application Developer Intern | Code Clause

Jul 2024 - Sep 2024

- Developed and debugged Android applications using Kotlin, Java, Firebase, and Android Studio while applying UI/UX principles.

Android Developer Team Leader | Upper Edge Property Management - Capstone

Jan 2023 - Apr 2023

- Led development of a Q&A mobile application using Java, Firebase, Android Studio, and Figma
- Coordinated stakeholder meetings and presented the completed application.

EDUCATION

Software Development Diploma (3.93 GPA)

Bow Valley College

Jan 2022 - Jun 2024

Calgary, AB
